MARY KATE ROMANO
Head Coach

Mary Kate Romano is in her second year as the head coach of both NJIT swimming programs. She succeeded her father, Tom.

Romano is the director of undergraduate programs for NJIT’s School of Management. As a graduate student in 2002-03, she was a member of the the Highlanders’ soccer and swimming teams. She also swam one season as an undergraduate for The College of New Jersey.

Following her graduation from TCNJ, Romano served two years with the United States Peace Corps in El Salvador. She earned her master’s of business administration from NJIT in May 2004 and is pursuing a PhD in global affairs from Rutgers University. She lives in Newark.

MEAGHAN KILGALLEN
Assistant Coach

Meaghan Kilgallen joined the NJIT swim staff last season directly off of a four-year career at Montclair State University. She has also served four years as a coach with the Hasbrouck Heights Swim Club, including two as head coach.

A 1999 graduate of Immaculate Heart Academy, Kilgallen received her bachelor of arts degree in elementary education from Montclair State in December 2003. She is a third-grade teacher at Radburn Elementary School in Fair Lawn, and resides in Ridgewood.

PATRICK MCGURRIN
Assistant Coach

Patrick McGurrin is the newcomer to the coaching staff for 2004-05. He spent the last four years as a varsity swimmer at Montclair State University, where he was a captain as a senior.

McGurrin, who attended Sparta High, received a bachelor’s degree in justice studies from MSU in 2004. He coached at the club level for one year with the Lake Tamarack Torpedoes, and is a certified lifeguard.

ATHLETICS FACILITIES

The NJIT men’s and women’s swim teams compete and practice in **Fleisher Pool**. The six-lane facility on the first floor of the **Estelle and Zoom Fleisher Athletic Center** is also staffed by certified lifeguards for recreational swimming.

Additionally, the teams have access to all of the other facilities in the athletic center. These include the fitness area (containing computer-controlled biking equipment, Cybex resistance units and an indoor track), two weight rooms (free-weight and hammer-strength), four racquetball courts, a martial arts center, and four lighted outdoor hardcourt tennis courts.

The Highlanders’ men’s and women’s basketball and volleyball teams play their home events in the main gymnasium of the athletic center. The facility can entertain crowds of up to 1,500, and is also open to the campus community during selected hours for recreation.

Lubetkin Field, home to the men’s and women’s soccer teams, recently underwent a \$1.2 million renovation project, including the installation of SprinTurf artificial grass and a running track. It contains a midfield scoreboard and pressbox facilities, and its bleacher seating can hold approximately 1,000 spectators.

NJIT is in the midst of a three-year agreement with the independent Newark Bears Professional Baseball Club to play its home baseball games at **Bears & Eagles Riverfront Stadium** in downtown Newark.

UNIVERSITY INFORMATION

MIKE PETERS

New Jersey Institute of Technology, the state’s public technological research university, enrolls more than 8,200 students in bachelor’s, master’s and doctoral degrees in 100 degree programs offered by six colleges: Newark College of Engineering, New Jersey School of Architecture, College of Science and Liberal Arts, School of Management, Albert Dorman Honors College, and College of Computing Sciences. NJIT is renowned for expertise in architecture, applied mathematics, wireless communications and networking, solar physics, advanced engineered particulate materials, nanotechnology, neural engineering and eLearning.

NJIT’s history spans from the Industrial Revolution to the Information Age. Newark was a factory town when the tuition-free evening school was founded in 1881 to support local industries. From the early days, science and techology have been the engines fueling the university’s development.

Over time, the university both anticipated and responded to change by expanding its curriculum and mission. Most notably, in 1919, the university established baccalaureate programs in three engineering fields. By 1975, NJIT offered a broad range of undergraduate and graduate degrees. All programs included significant research and public service components with the goal of providing an academic environment that fostered intellectual depth and breadth, as well as social responsibility.

Today, continuing a fourfold mission of instruction, research, economic development and public service, NJIT is among the leading comprehensive technological universities in the nation, with state-of-the-art facilities on its 45-acre campus in Newark and a solar observatory in Big Bear, California.

CHRISTINA CROVETTO

The clock tower and carillon sit in a European-style plaza adjacent to the newly-renovated Campus Center.
