Lucas Dorazio	Ldd3@njit.edu	By appointment

\*I will respond to all emails/Inbox messages within 24 hours. Quizzes, homework, and discussions will be graded weekly.

### General Information

#### Course Description

This course is designed to provide engineering students with the career planning and professional skills needed to search for and secure employment, and succeed in their career. This course will include a variety of self-directed online learning modules and in-person required activities that address - career planning; Career Development Services (CDS) resources & events; marketing and communicating your value and skills through resume, cover letter & professional networking platforms; interviewing skills; professional correspondence and transitioning from NJIT to the workplace.

#### Prerequisites/Co-requisites

None

#### Course Learning Outcomes

By the end of the course, students will be able to:

- Develop a professional resume and cover letter to apply to positions
- Create a professional networking platform profile

- Prepare an ePortfolio demonstrating their technical skills and key engineering projects
- Provide professional feedback or critique
- Develop an effective elevator pitch
- Participate in mock interviews
- Demonstrate effective communication skills and professional and business etiquette

### Required Materials

None. There will be material made available weekly on Canvas

### Grading Policy

[NJIT Grading Legend](#)

### Final Grade Calculation

Final grades for all assignments will be based on the following percentages:

<b>Participation in Discussion Forums</b>	<b>20%</b>
<b>Weekly Deliverables</b>	<b>50%</b>
<b>Weekly Minute Paper/Key Takeaways</b>	<b>15%</b>
<b>Final Reflection Paper</b>	<b>15%</b>

### Course Work

**Discussion Forums: (20% of grade)** You are expected to participate in weekly discussion forums in Canvas. When all students participate in a discussion, it creates an active learning environment that will help you better understand the materials and be more successful in the class. You will post your initial response to the prompt by Fridays at 11:59pm and respond to two classmates by Sunday at 11:59pm of the week they are listed.

**Weekly Deliverables: (50% of grade)** Assignments will be given weekly to give you an opportunity to apply course concepts for that week. There are 8 assignments in total, and these will be weighted equally.

**Weekly Minute Paper: (15% of grade)** Students will be assigned to complete a one-minute paper describing the key takeaways from that session on a weekly basis.

**Final Reflection Paper: (15% of grade)** Students will be tasked to write a short 1-2-page reflection paper to summarize key learnings from the class.

### Feedback

I will deliver feedback on each assignment using the comments feature in Canvas.

### Letter to Number Grade Conversions

The course is "Satisfactory / Unsatisfactory" only. In addition to the attendance policy, an overall grade of 80% or higher is required to get a satisfactory grade.

## Exam Information and Policies

This course does not have any exams. Per the NJIT [Online Course Exam Proctoring Policy](#), this course will use authentic assessment, meaning you will be assessed and graded on your ability to deliver real-world outputs as well as your participation and feedback to other students.

## Attendance Policy

Attendance at all face-to-face sessions is required. Missing more than two face-to-face sessions will lead to an unsatisfactory grade in the course. Leaving early will be marked as absent.

Excused absence is allowable, but the instructor must be notified by the Dean of Students office.

## Course Policies

Weekly deliverables are due BEFORE the start of Lecture. Assignments turned in after the lecture starts are counted as late. Assignments that are more than 2 weeks late will not be accepted.

Point deduction – Late Assignments: 1 week late-20%, 2 weeks late-30%

At least 70% of the weekly deliverables have to be submitted for a satisfactory grade.

Not submitting the final reflection paper will lead to an 'Unsatisfactory in the course.

## Academic Integrity

*“Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the [NJIT academic code of integrity policy](#).*

*Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at [dos@njit.edu](mailto:dos@njit.edu)”*

## Netiquette

*Throughout this course, you are expected to be courteous and respectful to classmates by being polite, active participants. You should respond to discussion forum assignments in a timely manner so that your classmates have adequate time to respond to your posts.*

*Please respect opinions, even those that differ from your own, and avoid using profanity or offensive language.*

## Weekly Expectations

This course is organized by weekly modules. Each week, students must watch a lecture screencast or attend an in-person seminar. Additionally, students will also complete a

minute paper, submit deliverables, and participate in a discussion forum on a weekly basis. The initial post of the discussion forums will be due on Friday nights by 11:59 p.m., and the reply to your classmates will be due on Sunday nights by 11:59 p.m. The minute paper for the face-to-face classes are due by midnight on that day. The minute paper for the online classes are due Sunday night by 11:59 pm. All weekly deliverables will be due one week after they are assigned, unless otherwise specified. All submission deadlines will be available on Canvas.

### Generative AI

Student use of artificial intelligence (AI) is permitted in this course for certain assignments and activities. It is not permitted to be used in the assignments noted by the instructor, as doing so would undermine student learning and achievement of course learning outcomes. Additionally, if and when students use AI in this course, the AI must be cited as is shown within the NJIT Library AI citation page for AI. If you have any questions or concerns about AI technology use in this class, please reach out to your instructor prior to submitting any assignments.
