

CHE 791
Graduate Seminar
Spring 2024

Instructor: David C. Venerus, 204 LSEC, email: venerus@njit.edu

Course Objective: To gain exposure to research being conducted in academia, industry and national laboratories from a wide range of areas within chemical and materials engineering.

Attendance: Attendance will be taken—students are allowed to miss *one* seminar.

Written Summary: Students must write and submit (hard copy) a one-page summary for one of the seminars that gives a summary of the technical results, and the strengths and weaknesses of the presentation.
