Course Description

ENGL 102 takes a multidisciplinary approach to research writing and emphasizes information literacy. While building on the skills learned and practiced in ENGL 101, students will develop a research question of their own choosing, research, analyze and synthesize evidence and create several multimodal assignments. To do so successfully, students will immerse themselves in various types of readings to inform and support their writing. Overall, the purpose of this class is to prepare students for university-level research and writing and to continue to hone their process writing skills for transfer to the professions.

Course Goals

During this course students will:

- Review the writing process and its non-linear nature
- Create multimodal assignments supported by increasingly more complex research
- Explore and refine research topics using academic primary and secondary sources
- Find, evaluate and choose sources effectively, building on rhetorical analysis skills from ENGL 101
- Draft and revise two research essays from two different disciplinary lenses
- Demonstrate an understanding of intellectual property, plagiarism, and the importance of distinguishing between source material and one's own work
- Demonstrate knowledge of formatting for American Psychology Association (APA) citation style

No required text

This course makes use of books and resources found on <http://library.njit.edu> and other pdf and word document files and resources provided by the instructor as well as Open Educational Resources (available for free on the Web).

We will be using the following electronic book from our university library which is available to all students (no need to download the book):

Glasman-Deal. (2010). *Science research writing for non-native speakers of English*.
Imperial College Press.

At <http://njit.library.edu> choose "Books" and then type in the title of the book. Choose online availability and "Read online."

Assignments & Assessment

Students' grades will be calculated as follows based on a 100-point scale:

Part 1 Researching, prewriting, drafting

Participation includes attendance AND your consistently active presence in class, submission of assignments on time and satisfactory completion of the following in-class mini-writings (completed on discussion board):

- (1) Question based on assigned reading (week 2)
- (2) 2 Annotated bibliography entries (week 7)
- (3) Thesis formation (week 8)
- (4) Transitioning between paragraphs (week 10)
- (5) Writing a title (week 11)
- (6) Writing an abstract (week 11)
- (7) Writing a discussion/summary (week 12) 15

Explanation of your (proposed) job in your major addressed to friends and family (week 3) (250 words) 5

Research proposal - oral presentation with 2-lens approach to your research idea (2 minutes) (week 4) 10

Part 2 Multidisciplinary writing in peer-reviewed journal article format; multimodal projects

Major project -- Peer-reviewed journal articles:

Two References pages (APA style) for two 5-page research essays 10
with a **250-word statement** for each revealing how 5 sources will support your thesis

Two 5-page research essays, same topic/content, 2 lenses or approaches (weeks 7-11)

(1)	20
(2)	20

Draft and revise two research essays of 5 pages each, same topic, different lenses; structured like the introduction, argument and literature review in a peer-reviewed research journal article (appearing before the Methodology section).

Choose one of the two 5-page research essays and complete with
Title, Abstract, Keywords, Discussion/conclusion 5

(weeks 11-13)

Poster and presentation

10

Visual argument from research work

In the form of:

- (1) Graphic novel scene or
- (2) Public Service Announcement (PSA) or
- (3) Infographic

First-Year Writing Procedures for Student Success:

Participation and Attendance

Attendance and participation are critical to your success in this class. Participation is required for all in-class activities, including drafting, revising, discussions, peer support and discussion board writings. Students need to attend AND participate in class with regularity in all class activities including reading, writing, critical thinking, discussing, interpreting, analyzing, synthesizing, asking questions and responding to one another. Additionally, there will be informal class writings (often in discussion boards and graded) as well as regular workshopping in which students apply the day's lesson to their writing in progress. We will also politely do peer and class reviews. Level of engagement with the material is often correlated with success on assignments. Classroom activities are designed to aid in students' developing a writing process of their own that can be applied to most writing tasks.

Attendance

You may miss up to one week of class (or two classes) without penalty. Every subsequent unexcused absence will result in the deduction of participation points. Regular participation in class activities and workshops (many are graded) is required to earn participation points. Not participating in the writing process will be met with further deductions. More than six unexcused absences (three weeks of the course) can result in failure of the course: Activities and workshopping as part of the writing process cannot be made up, and not participating in these classes often leaves students disconnected from the practical skills needed for each genre.

Students who expect to miss class for religious observances should contact their instructor about these dates at the beginning of the semester (per university policy).

All assignments must be submitted on Canvas (which automatically assesses for plagiarism and AI generation using Turnitin). Please follow the specific instructions for each assignment.

Essays

There are 2 formal 5-page essays (and additional parts written for one of these 5-page essays to complete it as a peer-reviewed journal article).

Students must submit at least one rough draft and a final draft to be considered for a grade for that assignment. Without engaging in the writing process throughout the semester on required assignments, students cannot pass the course.

Students will receive feedback from instructors as a vital step in the writing/revision process. These guiding comments should be followed by students in the drafting process, and this process will be assessed as part of students' participation grade. Drafts may also be reviewed in small peer groups during class time or in whole-class review (when students volunteer their drafts to be improved by the class).

Class activities and discussion are vital in evaluating students' engagement with coursework and are often graded as part of the participation grade (15% of their overall grade for the course).

Late Work

Late work will not be accepted (except in the case of an excused absence). Students should contact their instructor in advance of due dates when having difficulty completing an assignment.

Technology

Canvas is NJIT's learning management system. In First-Year Writing (FYW) instructors share course materials, grade assignments, give feedback on drafts, participate in discussions while students read course material, view assignments, submit essays, write and create in discussion boards. There are no written exams in FYW. Participation on discussion boards or other short essays or responses are regularly completed on Canvas and will count toward students' participation grade.

Students use their NJIT email as the primary method of communication and maintain an appropriate tone. Include an appropriate subject line and name in all emails for more efficient correspondence.

Students should not use cell phones during class unless needed for a specific activity. Resist the distraction and focus on one thing at a time - classroom lessons, activities and discussion. Active engagement in class leads to better outcomes in grading. Everyone should set phones to silent as a courtesy.

Laptops should only be used when we are drafting, researching, note taking or otherwise engaging in classroom activities requiring them. Students that practice professional, focused behavior now will be more prepared for the work world!

NJIT University Code on Academic Integrity

Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are

working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at:

<http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>.

Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at dos@njit.edu.

All assignments submitted shall be considered "graded work" and all aspects of your coursework are covered by the Code on Academic Integrity. All projects and homework assignments are to be completed individually unless otherwise specified.

Chat GPT

First-Year Writing (FYW) follows the guidelines from the NJIT University Code of Academic Integrity:

"Artificial intelligence usage is not permitted in this course. The expectation of this course is for students to work through the course without assistance from any type of artificial intelligence to better develop their own skills in this content area. As such, artificial intelligence usage is not permitted throughout this course."

Accessibility Needs

Every attempt will be made to accommodate qualified students with disabilities. If you are a student with a documented disability, please see me as early in the semester as possible to discuss the necessary accommodations, and/or contact the Office of Accessibility Resources and Services at 973-596-5417.

The Writing Center

The Writing Center (Central King Building G17) is available for in-person and virtual sessions. This resource is free and intended to help you improve your writing and communication skills with tutors who help with planning assignments, improving your writing, refining an essay or multimedia project, for classes, personal statements, etc. For more information or to make an appointment, please visit <https://www.njit.edu/writingcenter/>.
