# The Social Media Dilemma

Fall 2024

# HSS 404: 033

# T/TH 10:00 - 11:20 CULM Lect 2

#### **Dr. Theresa Hunt**

**Humanities Department** 

#### thunt@njit.edu

#### **Course Description**

How do we experience the digital world? How are those experiences different from the *analog* world? The physical or empirical world? Which is the "real" world? How does our experience with the digital change based on who we are and where we live? This course introduces concepts and methods drawn from sociology to analyze humans and/in digital environments, with a particular focus on social media. By learning about theory and case studies of current events, we will investigate privacy, identity, work, law, and justice as they become intertwined with digital technology. In addition, as part of the university-wide VITAL Active Learning Initiative, this class will feature immersive and collaborative assignments as follows:

Our semester is divided into several modules organized by specific outcomes. In two of these modules, students collaborate in groups to develop either a podcast episode or an audio/visual learning and information guide. Students will listen to and review each other's work, and the content creators will be required to reflect on their collaborative and individual process, as well as their own final product. In Project Module 1, students investigate core concepts of digital sociology, design ethics, and current policy debates about social media. In Module 2, students explore data, algorithms, information, and surveillance. Research, writing, and presentation work in this course ranges from analysis of current headlines and ethical concerns to the tasks and issues facing the developers and administrators of social media.

#### **Office & Hours:**

115 Cullimore

M 10-11; W by appt

**Prerequisites** for this class include completion of the GUR in English (3 credits), Cultural History (6 credits), Basic -Social Sciences (6 credits) and either the Lit/Hist/Phil/STS (3 credits) or the Open Elective in Humanities and Social Science (3 credits).

# Required Texts and Course Materials to Purchase

1. **Video:** Black Mirror, Season 3, Episode 1, "Nosedive" on Netflix or available for purchase on <u>Amazon Prime</u>

All other texts have been made available on Canvas, and are organized by date. Should you need to access an article from *The New York Times*, <u>you can create an account through Van Houten</u> Library.

**Recording** audio and/or video will be a required part of this course. Your group can determine the best tools and/or programs for recording, editing, and producing content. Two options we will discuss during the first weeks of the semester include Audacity and VoiceThread. Familiarize yourself with these options by reviewing them here: <u>https://www.audacityteam.org/</u> and here: <u>https://voicethread.com/</u>.

# **Ongoing Course Objectives**

- Demonstrate an understanding of disciplinary theories that emerge through course notes/ instruction and course readings
- Demonstrate eventual proficiency with core concepts in the sociology of technology, and their application to the building of technology infrastructure and the development of law and policy.
- Demonstrate improvement with this analysis over the course of the semester by responding effectively to instructor feedback and directives.
- Demonstrate proficiency with information literacy by producing multi-layered, bibliographic research components in Module Presentations ("episodes" or "guides"),
- Demonstrate consistent engagement with classmates and the professor through team collaboration on episodes/guides
- Demonstrate leadership and initiative capabilities by facilitating conversations within collaborative groups, responding effectively to classmates and delegating or dividing tasks effectively and efficiently
- Demonstrate meaningful and impactful reflection of finished products by providing effective peer and self-review

# **Coursework Overview**

**Class Meetings:** This class meets face-to-face on Tuesday and Thursday from 10-11:20 in CULM Lecture 2. Classwork is part of each in-person session. To complete the activity for credit, **your presence is required**. Classwork activities cannot be made up, but the lowest score will be removed from the final average.

In weeks 3-6 of a project cycle, students will collaborate to determine topics, divide research tasks, and create content. Meetings are flexible and can include alternate locations. Options and procedures for determining meeting locations and checking in with Dr. Hunt will be discussed during week 1 of our course.

# **Project Module Schedule Guidelines**

**Weeks 1-2: Content Introduced.** Formal, structured class meetings include traditional lecture and discussion. Core content (theory, readings, etc) that will be central to the groups' episode/guide will be introduced.

**Week 3-4: Initial Team Collaboration & Pitch Meeting.** Groups meet using classroom or alternate space to determine a topic and plan preliminary bibliographic research. On Class 2 of Week 2, groups meet with Dr. Hunt to pitch ideas and turn in Task 1: Outline & Action Plan.

Week 5-6: Share Findings and Draft. Groups meet independently to share findings and develop drafts. Rough draft and outline due.

Week 7: Publish and Present! Formal, structured class meetings will include presentation of projects and class-wide reflection/assessment.

**Module Exams: Course content** and **reading** will differ in each unit. It is imperative that students keep pace with the course reading / lesson schedule, as the units build upon each other. 2 exams will be administered to assess learning at the close of each module. They include multiple choice questions on the assigned readings, as well as short-answer questions demonstrating student's engagement with the assigned work. Critical feedback on these questions will direct students toward what he or she needs to focus on more specifically in preparation for future assignments. There will be NO final exam for this course.

**Final Paper: A final, 6-8 page paper** expanding ONE of your group's projects will be required by the end of the semester. This paper will include bibliographic research and be presented in MLA or APA format. Options for type and format will be discussed in early October. **\* Other Course Policies \*** 

#### Late assignments:

For **Module Episodes/Guides,** completing tasks on time is essential. Your group is depending on your active and timely contributions to produce successful content by the end of the module. Task lists and outlines will be created during the "prep week" (week 2) of each module, and will include group-determined deadlines. Self- and group-evaluation assessments will be completed by the end of each module, and will include an assessment of whether/how you have completed tasks on time. Rubrics for Module assessment include on-time completion of tasks, and will be worth 15%.

**Final Projects** submitted late will lose 1 grade point per day (ie from a B to a C). Work submitted 48 hours after the stated deadline **will receive NO credit**. Receipt of <u>final</u> papers is verified through TurnItIn or instructor email. If you do not receive a return receipt within four hours of sending the final paper, **it is your responsibility** to follow up and ensure your paper has been received.

**Plagiarism**, or presenting someone else's words, thoughts, or ideas - including LLM such as ChatGPT - as your own is cheating, and will not be tolerated. The NJIT Honor Code will be upheld, and any violations will be brought to the immediate attention of the Dean of Students. NJIT enforces strict academic integrity policies, and any plagiarized material **will** result in a failing grade for the assignment and possibly for the course. Academic probation and possible suspension or expulsion from the university may also be pursued by NJIT administration in cases of plagiarism. **Three very important things to remember:** 

- 1) Various plagiarism-detection tools are employed in this course.
- 2) There have been numerous cases of students attempting to submit papers written by students enrolled in earlier versions of this class. These students have received failing grades and academic probation – and the students supplying the papers have also been punished.
- 3) If you're struggling with the final project or concerned about these policies, I'm happy to work with you! Plagiarism is <u>not worth the risk to your future.</u>

#### Final Grade assessment formula:

Modules (see rubric breakdown for weight of individual components)	50%
Collaboration Assessment	10%
Final Paper	15%
Exams	15%
Attendance and Participation	15%

#### Final Grade assignments:

A =89.6-100; B+=87-89.5; B =80-86.5; C+=77-79.5; C =69.5-76.5; D+=66.5-69.5; D = 59.5-64.5; F =59.4 or below

# Course Schedule

Subject to change as needed. Assignments and/or deadlines are highlighted in **red**.

Use this schedule with Canvas to understand what is expected of you for each Module. Ask questions early and often: <u>thunt@njit.edu</u>. If you ever feel overwhelmed by the pace, confused by a reading, unsure of an assignment, and so on, I am here to help you succeed. Please reach out to me throughout the term!

# Project Module 1: What's the Problem?

#### Week 1: Defining the Problem

9/3: Class intro and overview

9/5: Noble, intro, *Algorithms of Oppression*; Bragg, "<u>The Writers' Strike Over AI is Bigger Than</u> <u>Hollywood</u>"; The Daily, "<u>Did AI Just Get Too Smart</u>?"

#### Week 2: Refining the Problem

9/10: <u>Carvão</u>, "The Supreme Court Has Spoken on Gonzalez v Google"; Lieberman, "<u>Terrorism</u>, <u>The Internet</u>, and Propaganda"

9/12: Haidt, excerpt, <u>The Anxious Generation</u>; Hidden Brain, <u>Me, Me, Me: The Rise of Narcissism</u> in the Age of the Selfie; National Conference of State Legislatures, <u>Social Media and Children</u> 2023 Legislation

#### Week 3: Introducing Project 1

9/17: Infographics, Infoguides, and Initial Team Meetings 9/19: Flex Class; teams meet to collaborate on pitch meeting prep

### Week 4: Drafting

9/24: Pitch Meeting – appointment times TBA 9/26: Flex Class; teams meet to collaborate on **Task 1**: Objectives and Plans. Assignment **due by 1 PM.** 

#### Week 5: Scripting

10/1: Flex Class; work on scripts 10/3: Flex Class; **Task 2: Draft script/outline due by 1 PM** 

#### Week 6: Finalizing Scripts

10/8: Review Meeting – appointment times TBA 10/10: Flex Class; prepare presentations

Week 7: Presenting Guides

10/15: Groups 1-3 Present 10/17: Groups 4-6 Present

#### Week 8: Reviewing and Critiquing

10/22: Newton, "<u>What The Social Dilemma Misunderstands</u>"; Odgers, "<u>The Great Rewiring</u>"; Task 3: **Infoguide reviews due by 1 PM** 10/24: Exam Review; **Project 1 due by 1 PM** 

#### Week 9: Exam Week

10/29: Exam Part 1 – Completed during class 10/31: Exam Part 2 – Take-home due **by 1 PM** 

# Project Module 2: Data & Surveillance

#### Week 10: Defining and Refining the Problem

11/5: excerpt from Lupton's *Digital Sociology*; QS, <u>Quantified Self Community</u> 11/7: Watch *Nosedive* prior to class; Carney, "Leave No Dark Corner"; Yang, "<u>China Just</u> <u>Announced a New Social Credit Law</u>"

#### Week 11: Refining the Problem and Introducing Project 2

11/12: Successful Podcasting 11/14: Flex Class; teams meet to collaborate and brainstorm. **Task 1**: Objectives and Plans. Assignment **due by 1 PM.** 

#### Week 12: Introducing Project 2

11/19: Flex Class; Task 11/21: Flex Class; **Task 2: Draft script/outline due by 1 PM on NOVEMBER 30** 

Week 13: Drafting 11/26: Check-in Meeting and Exam Review

#### Week 14: Scripting and Recording

12/3: Exam Part 1 - Completed during class 12/5: Flex Class; *be prepared to accommodate a meeting request during this class session* 

Week 14: Scripting and Recording 12/10: Conferences and Optional Final Review of Podcast Projects; Project 2 due by midnight

### Podcast Reviews and Final Essays due by December 17 at midnight
