

Course Description IS350

IS 350 - Computer, Society & Ethics

General Course Information

Course Format

Most of the work will be at an individual pace, although there will be strict deadlines for each assignment. There are videos you are responsible to view as well as weekly assignments and postings. You will engage in other activities on-line, both individually and in a team. All are mandatory. You will be responsible for reading the textbook and online materials, participating in online discussion and activities, and doing all assignments.

Prerequisites

As prerequisites, IS 350 requires an introductory course in computing, an introductory course in the social sciences, and HUM 101. This course is an upper-level course designed for juniors and seniors.

Course Goals

Upon the completion of this course, you should be able to:

1. Explain beneficial and detrimental ways in which computing affects people, including the primary and secondary effects, and intended and unintended consequences.
2. Utilize theories of ethical decision-making and professional codes of ethics to analyze difficult situations with computing aspects.
3. Find and critically evaluate relevant literature pertaining to a situation of concern.
4. Communicate about difficult issues in the computing sciences.

This is an ambitious set of goals, which meets several of the requirements for an ABET accredited degree in the Computing Sciences.

3. **Time Required** – This course requires a significant amount of work to help you achieve these goals. On average, you need to set aside up to 10 hours a week for this course, including discussion postings, lecture reviews, online activities, reading, studying the materials, homework and team activities.
4. **Lecture & Recitations** – The lecture slides cover the major course content and supplement (not repeat) the textbook. Readings and other online materials further supplement both the lecture slides and the textbook.
5. **Canvas** – Course materials and other information are on Canvas.
6. **Graded Assignments**
 1. **Ethical Case Analysis Assignment** – The only way to truly understand ethics is to apply ethical theories to real-world situations. Individuals will be responsible for reading and analyzing an ethical case scenario using the analysis protocol presented in class (week 2).
 2. **Weekly Discussions** – We will hold substantial discussion of the week's topics online via discussion postings in the forum. This is where we will begin by introducing ourselves, discuss course content or current events related to ethics and technology. **For each discussion assignment, you must post one original post and reply to two classmates' posts with substantive posts. Substantive posts add to the discussion. A simple post such as, "I agree" or "I disagree" is not substantive and will not receive credit.** The original post can be graded to a maximum of 3 points while each of the two replies can be graded to a maximum of 2 points for a possible total of 7 points. Some weeks there will be a specific topic(s) to discuss in the Forum. Other weeks, you will be asked to discuss one or more of the assigned contents for that week. Be sure to read Forum instructions.
 3. **Weekly Short Quiz** – To ensure you are prepared and have read the material, there is a quiz most weeks on the upcoming week's readings, including the chapter for the week
 4. **Debate**– As part of a team you will persuasively argue about an ethical dilemma concerning technology in a debate format. This will be a recorded presentation. You will be assigned to a team and assigned to a topic and position (pro or con).
 5. **Current Events Assignment**– This is an individual assignment that focuses on an interesting and timely topic that you are assigned which demonstrates the impact of technology on society. There are several parts to this assignment. They are:
 1. **Investigate the Current Event Topic assigned to you**
 2. **Create a recording of your Current events topic (presentation)**
 6. **Midterm Current Event Report**
 7. **Final Current Event Report**
 8. **Introduce Yourself** – The first Discussion Forum assignment, due at the end of the first week, is to post a brief introduction to yourself so we may all get to know one another. For each Discussion Forum assignment, unless otherwise specified, you will make an original post and then reply to at least two of your classmates' postings. Original postings and replies must be substantive. They must add to the conversation. For example, a reply of "I agree" is not substantive and will not be awarded any points.
 9. **Community Service Internship (optional and NOT during the summer)** – NJIT Career Services can provide you the opportunity to work with a Newark-area non-profit organization using your skills to help that organization achieve its goals. This is a great experience, great service, can

open doors for you, and looks great on your resume! Once information is available, it will be posted on Canvas.

Deliverable	Percentage
Assignment: Debate (group)	15%
Assignment: Current Events Presentation	15%
Chapter Quizzes	10%
Assignment: Ethical Analysis	10%
<i>Midterm Report</i>	20%
<i>Final Report</i>	20%
<i>Discussions - weekly</i>	10%
TOTAL	100%

Important Welcome Information About This Course

+++++

Welcome to IS 350.

Important information, including a letter from the professor and the components of the course syllabus, along with some major policies on assignment submissions and deadlines, are included and reviewed below.

I. A Letter From Professor Keita Ohshiro

Dear IS 350 students:

As the professor for the online and Face to Face sections of IS 350 Computers, Society, and Ethics, I would like to welcome you to what I hope will be an exciting and rewarding semester in our "Classroom" either "Face to Face" or "Virtual".

We will be using Canvas for our interaction in this course. Canvas is a Learning Management System that includes features to support teaching and learning. All pertinent class information will be posted there. Detailed information for this course is provided in the course syllabus. Please email me at keita.ohshiro@njit.edu if you have any questions or concerns.

All normal class functions, such as homework and interaction with the instructor, and other classmates will be conducted using Canvas. Although we will not physically see each other in the classroom, I will provide opportunities for us to meet during the semester as a group, sub-groups, or individually, on a volunteer basis for those who are interested and able to make it. I will provide more context on this in Canvas.

By now, many of you have already taken online classes before, but some may still be wondering how this learning experience is going to be different from others. In the traditional face-to-face class, we have an instructor taking a lead in communicating course material while students listen, take notes, ask questions, and get answers. Often, due to time limitations and other factors, many students never get to asking or answering questions. Furthermore, some students may be uncomfortable participating in class discussions. In the Virtual Classroom, the content as well as questions and their answers are entered into the learning management system. All questions/answers/comments can be seen by the instructor and classmates. There are no time constraints on when the class starts or ends, and you can fit the coursework whenever you have time during the week, 24 hours a day. However, you must submit the work by the stated due dates.

Please note that IS 350 is offered in multiple sections, different modalities, and taught by a group of committed instructors. It is also a "coordinated course". As such, in general, all sections share common content, assessment, and learning objectives. However, we all have different backgrounds, skills, and interests, which gives some distinctiveness to what we do. At this time, please take a look at the [instructor introduction](https://njit.instructure.com/courses/49576/pages/instructor-introduction-regan).
(<https://njit.instructure.com/courses/49576/pages/instructor-introduction-regan>)

Because of the absence of regular physical class meetings, you might be tempted to "skip a couple of weeks". To avoid this, there will be electronic homework due every week, and you will be expected to log into "Canvas" at least **twice a week** during the semester to review current/new activities. This is an absolute attendance requirement.

At this time, please read the entire content of "About this Course" and "Week 1".

I would like to wish you good luck in this semester and especially in this course. I hope that you will find it an exciting experience.

Sincerely,

Keita Ohshiro

II. Important Course Details

The IS 350 course follows the latest NJIT guidelines on course delivery. There are a total of 14 modules in this course, one per instructional week. Each module is organized within a Summary Page that contains all we need to learn and everything we need to do that week. Starting with some "Opening Remarks" regarding the module's subject matter and ending with "Reminders" on important deliverables that are coming up or due, each module has three main sections: "I. Readings", "II. Lectures", and "III. Assignments". Also, I have provided a ppt presentation as the first item within the Summary Page that gives a Concise Guide to what we will learn and what is required of you each week.

It is important to use the links of the summary pages or the concise guides so you do not miss information you need to do the work correctly. This format is to help you complete the requirements on time and the course successfully.

Please read and familiarize yourself with additional course details below.

- [Course Description \(https://njit.instructure.com/courses/49576/pages/course-description-is350\)](https://njit.instructure.com/courses/49576/pages/course-description-is350)
- [Course Textbook \(https://njit.instructure.com/courses/49576/pages/course-info-pre-requisites-and-textbook\)](https://njit.instructure.com/courses/49576/pages/course-info-pre-requisites-and-textbook)
- [Grading and Attendance \(https://njit.instructure.com/courses/49576/pages/grading-policy\)](https://njit.instructure.com/courses/49576/pages/grading-policy)

- **Grade Rebuttal** (<https://njit.instructure.com/courses/49576/pages/grade-rebuttal-procedure>)
- **Office Hours** (<https://njit.instructure.com/courses/49576/pages/office-hours-egan>)

III. A Word About Our Discussion Forum

The discussion forum is an important vehicle for our learning in this class and serves as a repository for our interactions. You will be making weekly entries in this forum that are part of your grade. Please keep the following guidance in mind when you write in the forum.

Your posts should:

- stay on topic,
- show understanding of assigned material by using its content appropriately,
- integrate knowledge from course content to support your remarks/arguments,
- ensure that your writing is free of grammatical, spelling, or punctuation errors, and
- be made early in the assignment period to give fellow students time to reply.

Your replies to other students' posts should:

- be substantive and reflect understanding of the writing of the persons you are replying to,
- show respect to others' opinions,
- provide constructive criticism to other students regarding their work,
- contribute new ideas and/or build upon the ideas of others, and
- move the conversation forward, or offer answers to questions raised by the persons you are replying to.

IV. A Note About The Content Of The Discussion Forum

There is an important point that I wish to remind you of, specifically that the central theme of this course is "ethics". This is relevant to both the course topics and practice. As such, I would like to draw your attention to two readings in Week 1: [The NJIT Policy on Plagiarism](#) and [Some Tips on How to Avoid Plagiarism - Citing Sources](#), as well as a quiz on the subject in Week 2.

An emerging related issue impacting all of us is the use of AI language models to generate new content, for example ChatGPT. The recommendation for this class on this subject is consistent with existing university policy on academic integrity.

It is fine to use AI-assisted tools for learning responsibly alongside your own critical thinking and writing skills. Such tools must not write your entire essays or assignments though. This kind of behavior is considered cheating and can result in serious consequences, including failing the assignment or the course, or even being expelled from the university.

Use generated content as a starting point to inform your work, brainstorm ideas, and prepare notes for your writings just as you do with your textbooks, library resources, and web materials. Also, there are instances when it may be necessary and appropriate to use text as written by others, including technology, which is acceptable when you include it within quotation marks and cite these sources in your work.

Finally, remember that these tools will provide the same or comparable content to you and others with similar requests. More importantly, there already exists technology that can detect AI-assisted/generated writings.

COURSE INFO: Pre-Requisites and Textbook

IS 350 - Computers and Society

REQUIRED (prerequisite) background for this course:

- GER ([CS 100](http://catalog.njit.edu/search/?P=CS%20100) , [CS 101](http://catalog.njit.edu/search/?P=CS%20101) , [CS 103](http://catalog.njit.edu/search/?P=CS%20103) , [CS 104](http://catalog.njit.edu/search/?P=CS%20104) , CS 111, [CS 113](http://catalog.njit.edu/search/?P=CS%20113) , [CS 115](http://catalog.njit.edu/search/?P=CS%20115) , or [BNFO 135](http://catalog.njit.edu/search/?P=BNFO%20135) ,).
- AND one basic social science course ([STS 201](http://catalog.njit.edu/search/?P=STS%20201) , [ECON 201](http://catalog.njit.edu/search/?P=ECON%20201) , [ECON 265](http://catalog.njit.edu/search/?P=ECON%20265) , [ECON 266](http://catalog.njit.edu/search/?P=ECON%20266) , [EPS 202](http://catalog.njit.edu/search/?P=EPS%20202) , [STS 257](http://catalog.njit.edu/search/?P=STS%20257) , or [STS 258](http://catalog.njit.edu/search/?P=STS%20258) , AND [HUM 101](http://catalog.njit.edu/search/?P=HUM%20101) ,).

Text Book:

Michael J. Quinn, Ethics for the Information Age, 8th edition (2020).

* VitalSource version: ([link](https://www.vitalsource.com/textbooks?sort=&term=Ethics+for+the+Information+Age+8+ed)) ([Links to an external site.](https://www.vitalsource.com/textbooks?sort=&term=Ethics+for+the+Information+Age+8+ed))  (<https://www.vitalsource.com/textbooks?sort=&term=Ethics+for+the+Information+Age+8+ed>)
It is about \$48 for the online or downloadable PDF through VitalSource while the bound textbook lists for more.

(If you have a hard copy of the previous edition, it may be “mostly good enough”, **but** your weekly quizzes will mostly come from the latest edition and it has some new material.)

Grading Policy

Grading and other Requirements:

You can be eligible for an A if you do the following 3 things:

1. **Post all assignments on time. Late assignments are not accepted.**
2. **Participate in online discussions. Discussions are a major part of the class. Late postings prevent replies from other students. All discussions must be posted before the due date.**
3. **For this course, the postings also count as attendance, but, late postings will not be counted towards attendance.**

If you will miss any assignment deadline or session, email me in advance. Otherwise, you will be disqualified from an A. (Emailing me does not necessary earn back the A but is a required courtesy.)

Grading Scale

A = 90 and up
B+ = 85 to 89
B = 80 to 84
C+ = 75 to 79
C = 70 to 74
D = 65 to 69
F = less than 65

Regarding the release of grades for course assignments

For quizzes, these will be released on the morning of each quiz deadline. Generally, the deadlines for quizzes are Sunday night at 11:59 PM, with a one-hour grace period (until 1:00 AM Monday morning). Thus, grades will be released on Monday morning. By then students would either have taken the quiz or it will be beyond the deadline to do so.

For discussions, grades will be released by the end of the week when these are due. This is because discussions will be graded manually as essays, which will require more time and a conversation on each entry between me and our TA before they are released.

Attendance, Absence and Lateness Policy

You are expected to attend every class.

Attendance will be counted such that you are present for a week only if you post all required submissions to the week's Discussion Forum.

Attendance is taken such that you are present for a week ONLY if you post all required submissions to the week's Discussion Forum.

Each student is permitted **Three** absences during the semester. Additional absences will affect the student's grade by one letter lower.

The following guidelines apply:

If you are absent up to three (3) times without a medical excuse--no effect on your grade.

Four (4) times--your grade is lowered by one letter Grade.

Five (5) or more times--you will automatically earn an "F".

Medical Excuses need to be reported to the Dean of Students, who will determine if the absence is valid or not.

The Instructor will then decide whether or not the absence will be excused.

Grade rebuttal procedure

Grade Rebuttal Procedure

Timing: From the date the grades for each assignment are posted, you have up to 7 days to dispute a grade. After this period grade rebuttals will not be accepted.

Email address: Email the instructor and copy the TA using the email addresses in the syllabus.

Email subject: Use the email subject header "IS350 [Assignment Number] [Very Brief Reason]"

Email body: In the email body include:

1. Assignment Number/Type
 - If a discussion grade, then the week, subject of your posting, and whether it was the original post or a reply.
2. Student Name and UCID
3. Your current grade
4. Your desired grade
5. Your justification, following the instructions below

Justification using Grading Rubric/Template: You must clearly justify why you believe you should deserve a different grade. This is the most important part. You have to explain using the rubrics (grading template) provided for each assignment why you deserve a different grade. If your justification is clear, well reasoned, and correct, and the desired grade matches your justification you will get the full credit.

- For example, if you believe you should get a 100 instead of a 70 and you justify it correctly, you will get the 100.
- However, if you instead deserved a 85 and asked for a 100, you won't get anything.

It's a "deserved amount or nothing" situation, so be truthful regarding the grade you think you deserve.

Office Hours - Keita

Time (US Eastern Time):

- Tuesday and Thursday 11:45AM-12:45PM
- or by appointment

Where to meet:

- Online: <https://njit-edu.zoom.us/j/91468378073?pwd=AsOCcallyGqNcLHR3ndbD3aUR6bv wz7.1>  <https://njit-edu.zoom.us/j/91468378073?pwd=AsOCcallyGqNcLHR3ndbD3aUR6bv wz7.1>
 -  <https://njit-edu.zoom.us/j/91468378073?pwd=AsOCcallyGqNcLHR3ndbD3aUR6bv wz7.1> Meeting ID: 914 6837 8073
 - Passcode: 775796
- Or at GITC3902 if you prefer to meet in-person
