

THE DEPARTMENT OF MATHEMATICAL SCIENCES

## MATH 138: General Calculus I

### *Fall 2024 Course Syllabus*

**NJIT Academic Integrity Code:** All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

### COURSE INFORMATION

**Course Description:** Intended for students who are not in Science or in Engineering. An introduction to differential and integral calculus of a single variable.

**Number of Credits:** 3

**Prerequisites:** **MATH 107** with a grade of C or better, or **MATH 110** with a grade of C or better or NJIT placement.

**Course-Section and Instructors:**

| Course-Section | Instructor         |
|----------------|--------------------|
| Math 138-007   | Professor J. H. Ro |

**Office Hours for All Math Instructors:** **Fall 2024 Office Hours and Emails**

**Required Textbook:**

|           |  |
|-----------|--|
| Title     | <i>Calculus: Concepts and Contexts bundled w/ WebAssign</i>        |
| Author    | Stewart  |
| Edition   | 5th  |
| Publisher | Cengage  |
| ISBN #    | 9780357632499 (Book Only)<br>9780357756911 (Bundle with Webassign) |

**University-wide Withdrawal Date:** The last day to withdraw with a **W** is **Monday, November 11, 2024**. It will be strictly enforced.

## POLICIES

**DMS Course Policies:** All DMS students must familiarize themselves with, and adhere to, the **Department of Mathematical Sciences Course Policies**, in addition to official **university-wide policies**. DMS takes these policies very seriously and enforces them strictly.

**Grading Policy:** The final grade in this course will be determined as follows:

|                 |     |
|-----------------|-----|
| Homework        | 15% |
| Quizzes         | 15% |
| Midterm Exam I  | 20% |
| Midterm Exam II | 20% |
| Final Exam      | 30% |

Your final letter grade will be based on the following tentative curve. **NOTE:** This course needs to be passed with a grade of C or better in order to proceed to **Math 238** or **Math 246**.

|    |          |   |         |
|----|----------|---|---------|
| A  | 90 - 100 | C | 65 - 74 |
| B+ | 85 - 89  | D | 55 - 64 |
| B  | 80 - 84  | F | 0 - 54  |
| C+ | 75 - 79  |   |         |

**Attendance Policy:** Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the **Math Department's Attendance Policy**. This policy will be strictly enforced.

**Homework:** Homework is a requirement for this class. All homework assignments are online through WebAssign, which is linked directly from Canvas. Therefore, you don't need a class key to enroll on WebAssign, but you need to buy a student access code. Access codes are included with a new book that is bundled with WebAssign; codes can be purchased separately from the bookstore or online. WebAssign gives you free access for two weeks after the start of class.

**Quiz Policy:** Quizzes will be given approximately once a week throughout the semester. They will be based on the lecture, homework, and the in-class discussions. Quizzes will sometimes be assigned through WebAssign or Canvas, and students will be expected to complete the quiz online. There are no make-up quizzes; the average will be calculated after dropping the lowest two scores.

**Exams:** There will be two midterm exams held in class during the semester and one comprehensive final exam. Exams are held on the following weeks:

|                   |                                 |
|-------------------|---------------------------------|
| Midterm Exam I    | Week 6                          |
| Midterm Exam II   | Week 11                         |
| Final Exam Period | December 15 - December 21, 2024 |

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the **Math Department's Examination Policy**. This policy will be strictly enforced.

**Makeup Exam Policy:** There will be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event an exam is not taken under rare circumstances where the student has a legitimate reason for missing the exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor's note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the Math Department Office/Instructor that the exam will be missed.

**Cellular Phones:** All cellular phones and other electronic devices must be switched off during all class times.

## ADDITIONAL RESOURCES

**Math Tutoring Center:** Located in the Central King Building, Lower Level, Rm. G11 (See: **Fall 2024 Hours**)

**Further Assistance:** For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department's webpage for **Instructor Office Hours and Emails**.

**Accommodation of Disabilities:** The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you need an accommodation due to a disability, please contact the Office of Accessibility Resources and Services at [oars@njit.edu](mailto:oars@njit.edu), or visit Kupfrian Hall 201 to discuss your specific needs. A Letter of Accommodation Eligibility from the office authorizing student accommodations is required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Office of Accessibility Resources and Services (OARS) website at:

<https://www.njit.edu/accessibility/>

**Important Dates** (See: **Fall 2024 Academic Calendar, Registrar**)

| Date                            | Day                 | Event                        |
|---------------------------------|---------------------|------------------------------|
| September 2, 2024               | Monday              | Labor Day                    |
| September 3, 2024               | Tuesday             | First Day of Classes         |
| September 9, 2024               | Monday              | Last Day to Add/Drop Classes |
| November 11, 2024               | Monday              | Last Day to Withdraw         |
| November 26, 2024               | Tuesday             | Thursday Classes Meet        |
| November 27, 2024               | Wednesday           | Friday Classes Meet          |
| November 28 to December 1, 2024 | Thursday and Sunday | Thanksgiving Recess - Closed |
| December 11, 2024               | Wednesday           | Last Day of Classes          |

|                                     |                    |                   |
|-------------------------------------|--------------------|-------------------|
| December 12, 2024                   | Thursday           | Reading Day 1     |
| December 13, 2024                   | Friday             | Reading Day 2     |
| December 15 to<br>December 21, 2024 | Sunday to Saturday | Final Exam Period |

## Course Outline

*This outline is subject to change throughout the semester. A weekly Outline will be posted on Canvas homepage. All homework assignments are online using WebAssign.*

| Lecture # | Section #  | Subject Topic and Homework (HW) Assignment           |                            |
|-----------|------------|--|----------------------------|
| 1         | 2.2        | The Limit of a Function                              | 2.2 ex: 4, 6, 14, 16       |
| 2         | 2.3        | Calculating Limits using Limit Laws                  | 2.3 ex: 12, 16, 18, 20     |
| 3         | 2.5        | Limits Involving Infinity                            | 2.5 ex: 4, 16, 20, 22, 24  |
| 4         | 2.6        | Derivatives and Rates of Change                      | 2.6 ex: 6, 8, 11, 13       |
| 5         | 2.7        | The Derivative as a Function                         | 2.7 ex: 4, 14, 19, 21, 26  |
| 6         | 3.1        | Derivatives of Polynomials and Exponential Functions | 3.1 ex: 4, 8, 12, 50       |
| 7         | Appendix C | Trigonometry   | 3.2 ex: 3, 5, 15, 17       |
| 8         | 3.2        | Product and Quotient Rules                           | Appendix C: ex: 21, 23, 25 |
| 9         | 3.3        | Derivatives of Trigonometric Functions               | 3.3 ex: 3, 5, 11, 15, 16   |
| 10        | 3.4        | Chain Rule   | 3.4 ex: 3,4,12,16.         |
| 11        |            | <b>CATCH UP AND REVIEW FOR EXAM 1</b>                |                            |
| 12        |            | <b>EXAM 1</b>  |                            |
| 13        | 3.5        | Implicit Differentiation                             | 3.5 ex: 6, 8, 22, 24       |
| 14        | 3.7        | Derivatives of Log Functions                         | 3.7 ex: 4, 8, 10, 12       |

|    |     |  |                           |
|----|-----|--|---------------------------|
| 15 | 3.8 | Rates of Change in the Natural and Social Sciences | 3.8 ex: 8, 12a, 14        |
| 16 | 4.1 | Related Rates                                      | 4.1 ex: 11-14             |
| 17 | 4.2 | Max and Min Values                                 | 4.2 ex: 4, 6, 24, 26      |
| 18 | 4.3 | Derivatives and Shapes of Curves                   | 4.3 ex: 8, 12, 22, 24     |
| 19 | 4.5 | Indeterminate forms and L'Hopital's Rule           | 4.5 ex: 5, 8, 31, 34      |
| 20 | 4.6 | Optimization Problems                              | 4.6 ex: 10, 14, 18, 40    |
| 21 |     | <b>CATCH UP AND REVIEW FOR EXAM 2</b>              |                           |
| 22 |     | <b>EXAM 2</b>                                      |                           |
| 23 | 4.8 | Antiderivatives                                    | 4.8 ex: 5, 11, 25, 31, 41 |
| 24 | 5.1 | Areas and Distances                                | 5.1 ex: 1-2               |
| 25 | 5.2 | The Definite Integral                              | 5.2 ex: 5                 |
| 26 | 5.3 | Evaluating Definite Integrals                      | 5.3 ex: 4, 10, 14, 24     |
| 27 | 5.4 | The Fundamental Theorem of Calculus                | 5.4 ex: 8, 24             |
| 28 |     | <b>CATCH UP AND REVIEW FOR FINAL EXAM</b>          |                           |
|    |     | <b>FINAL EXAM</b>                                  |                           |
