Course Description

As technology continuously transforms products and business models and provides new competitive advantages that firms can capitalize on, this course introduces the marketing challenges of firms in the hyper-competitive environment. It provides students with an overview of marketing strategies: pricing, product, promotion, and place. Ethical issues are discussed, as well as other course concepts, using case analysis, videos, class discussions, and term projects.

Course Learning Outcomes

By the end of the course, students will be able to:

1. Explain the fundamentals of marketing for technology-based organizations.
2. Describe the marketing process and its application in technology-based organizations.
3. Evaluate decisions involved in planning, designing, and managing a marketing strategy within technology-based firms.
4. Analyze the hyper-competitive environment and internal/external forces that influence a technology-based organization's marketing strategy.
5. Define how to segment and target potential customers.

6. Evaluate the strengths and weaknesses of different market opportunities.
7. Apply concepts and tools necessary to develop and implement a customer-driven marketing strategy.
8. Discuss the role of ethics in marketing activities.

Textbook

Marketing Management, 16th Edition

Philip Kotler, Kevin Keller, and Alexander Chernev (2022)

Pearson

ISBN-13: 9780135887141

Grading:

Final Exam	30%
Case Studies (Case session 1 & 2)	25%
Discussion Forums	10%
Group Project & Presentation	15%
True Cost Sustainability Assignment	5%
Ethical Marketing Assignment	5%
In-Class Participation	10%

COURSE WORK:

Exam:

There will be one final exam during the Finals week. The exam will require application of the theories and principles covered in the class. The format of the exam will consist of multiple-choice questions, objective type questions, as well as short essay type questions.

Case Presentations:

In order to apply the concepts you have learned in the class, you will be working on several cases across the course of the semester. Students will work on cases in teams of 3-4. There will be two case presentation sessions across the semester. To maximize learning, in each case presentation session, teams will work on different cases and present them. More details about the case presentations will be given in the lecture. Cases will be graded based on the critical analysis of the case, quality of your team presentation, and, the questions you pose to other teams who are presenting. **All team members are expected to work equally on the case and all have to be involved in giving the presentation. Attendance is required during all case work and case presentation sessions - LOOK AT SYLLABUS FOR DATES ASSIGNED TO CASES**

Discussion Forums:

You are expected to participate in discussion forums in Canvas. When all students participate in a discussion, it creates an active learning environment that will help you better understand the materials and be more successful in the class. You will post your initial response to the prompt by Friday at 11:59 pm and respond to two classmates by Sunday at 11:59 pm of the week they are listed.

You will not see the posts of others until you make your first post. Any post with a few words or a statement that is not meaningful or does not contribute anything (like "I agree") will receive a zero. The original post should be a minimum of 100 words (longer if you include direct quotes). The follow up responses should be a minimum of 75 words.

Group Project & Presentation:

This project is designed to give students a chance to implement the knowledge obtained in this class and to improve students' ability to work in groups, as is often required in the field of marketing. Students will work in groups of 3-4 and work together to create a new product for a technology based organization of their choice. Groups will create a **comprehensive marketing plan** for their product, including pricing strategy, a detailed promotional campaign, a thorough distribution plan, target market, and positioning. Students will work in teams that will be assigned in the beginning of the semester. More details will be posted on Canvas during the semester for the project and presentation.

Group Project Final Presentation: Groups will give a 40-minute PowerPoint presentation about their product and marketing plan. The presentation must **incorporate concepts from the lectures and** insights taken from the course should be explained in your presentation. The work of all members should be incorporated into one cohesive ppt. Presentations will take place at the end of the semester. See the schedule at the end of syllabus for exact dates.

In-Class participation:

Class participation will be evaluated based on a combination of respectfully participating in class discussions, and class participation - making positive contributions to the class discussion through your comments and preparation **and students' adherence to class policies.**

True Cost Sustainability/Ethical Marketing Assignments:

Students will work on an assignments after a movie screening based on the Global nature of markets and Sustainability as well as a movie screening based on the ethical issues revolving technology based organizations – Refer to the syllabus for dates

No Electronic Devices Policy (During In-person Sessions):

Note that my goal is create an environment conducive to learning when meeting in class. This is best achieved when everyone is engaged and involved. I follow a NO-laptop/ipad/cellphone policy in my classroom during in-person sessions – laptops/ipads should not be used unless otherwise instructed by me. In order to make notes, the traditional pen-paper format can be utilized; hence please come equipped to class with the same.

To promote a professional/business-like atmosphere, cell-phones should NOT be used during class; please turn them off prior to coming to class and keep them out of sight until the end of it—thanks! Being found using smartphones and other devices while in class will result in a loss of your class participation grade.

HONOR CODE:

Students are expected to refrain from behavior that compromises their academic integrity. Dishonesty, such as plagiarism or cheating on an exam will result in an F on the assignment and potentially in the course. This is a school policy.

HBR CASE STUDIES

Case session 1

[KidZania: Spreading Fun Around the World](#)
