New Jersey Institute of Technology

Jordan Hu College of Science and Liberal Arts

Department of Physics

Course Outline	Physics 103	Fall 2024

General Information

- Description: Physics 103 is an algebra-based physics introductory college-level physics course in which students explore fluid statics and dynamics; thermodynamics; simple harmonic motion and waves; electrostatics; electrical circuits with capacitors; electromagnetism; reflection, mirrors, refraction, interference and diffraction. Through inquiry-based learning, students develop scientific critical thinking and reasoning skills.
- Number of Credits: 3
- **Pre-requisites: Phys 102 with grade C or better**
- **Co-requisites: Phys 103A (the lab course) unless previously taken**

FAILURE TO MEET EITHER CO-Requisites or PRE-Requisites will result in student being dropped from class.

Course-Section and Instructors:

Course-Section	Instructor
Phys 103-001	Professor H. Opyrchal
Phys 103-101	Professor A. Sirenko

Office Hours for the Physics 103 Instructors: https://physics.njit.edu/students/office

Learning outcomes: For this course you can expect to be assessed on the following learning outcomes:

1. Comprehend the meaning of equations governing the fluid at rest and fluid in motion. Understand the extension of conservation of energy and mass equations to fluid dynamics.
2. Define temperature scales.
3. Understand the phenomena of thermal expansion and Ideal Gas Law,
4. Understand the concept of heat and comprehend the meaning of equations governing the calorimetry and heat transfer.
5. Understand the basics concepts of thermodynamics.
6. Comprehend the meaning of equations governing oscillations and mechanical waves and apply those concepts to solve related problems.
7. Understand the concept of electric charge, electric field, electric potential, and electric current. Apply those concepts to solve simply circuits.
8. Understand the basic concepts of geometrical optics and learn how to apply them for mirrors, lenses and optical fibers.
9. Comprehend the wave theory of light and apply it the phenomena of interference and diffraction.

Course material:

- **Textbook***:* "Physics: Principles with Application, Seventh Edition by Douglas C. Giancolli, Prentice Hall, ISBN – 13: 978-0-321-62592-2

- **Mastering Physics Homework System:** Be sure that your textbook is sold bundled with a Mastering Physics student access code card. Each student must enroll in the course specified by his/her instructor. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system.

NOTE: THE LABORATORY COURSE, PHYS 103A, MUST BE TAKEN CONCURRENTLY WITH PHYS 103 THE STUDENT MUST REGISTER FOR BOTH THE LEC/REC AND THE LAB COURSE. WITHDRAWAL FROM EITHER COURSE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM BOTH COURSES.

Class attendance: The NJIT attendance policy is the following: "It is expected that students will attend all classes. Your teacher will take attendance at all classes and exams. More than 3 unexcused absences (in total) are excessive

Counseling and academic support: The Center for Counseling and Psychological Services **is committed to assisting students experiencing high levels of personal challenge and stress.** If you need accommodations due to a disability please contact Associate Director of Disability Support Services.

Help: Visit or email your instructors if you are having trouble with the course; do not simply hope for a miracle and fall further behind. The Physics Dept. office on the 4th floor of Tiernan has specific information on tutoring. Physics tutoring is available through the CAPE organization, and possibly elsewhere.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above.

Homework assignments will be posted on-line using the Mastering Physics Homework System. Please register for your section using. login: www.masteringphysics.com.

Specific Information for the enrollment in Pearson Mastering (PM) homework system is given in the pdf "Student Registration Instructions for Canvas" posted on Canvas course.

Verify Enrollment Duration: During the registration process, double-check the duration of your enrollment to ensure that it covers the entire duration of the semester.

Grading: Final letter grades will be based on a **term average** for the semester's work that includes the three common exam scores, the final exam, the homework score, and in-class quiz score.

Here are the approximate weights to be used for calculating term averages:

- **48%** for all three common exams (16% each)
- **32%** for the final exam
- **10%** for the total of homework work
- **10%** for the in-class participation (canvas quizzes)

IN-CLASS quizzes (during lecture or recitation period, be prepared to have canvas app on phone, iPad or laptop. Note: Quizzes taken remotely will be disregarded and counted against you).

The cutoff percentages for various letter grades will be:

Percentage	Letter Grade
≥ 85%	A
≥75 %	B+
≥65 %	B
≥56 %	C+
≥50 %	C
≥45 %	D
< 45	F

Final grades are not negotiable: A score of 84.99% is a B+, not an A.

Exams

There will be three Common Exams plus a comprehensive Final Exam. The schedule is:

• **Common Exam 1**: Wednesday, October 02, 2024; 4:15 -- 5:45 PM
• **Common Exam 2**: Wednesday, October 30, 2024; 4:15 -- 5:45 PM
• **Common Exam 3**: Wednesday, December 04, 2024; 4:15 -- 5:45 PM

- **Comprehensive Final Exam** TBA, 2.5 hours long

The final exam will emphasize the work covered after common exam 3, but also re-caps the whole course.
Note: Common Exams and Final Exam are all going to be Multiple-Choice questions. Students are going to submit exam questions and scantron cards to be collected at the end of each exam. There is not going to be any partial credit for multiple-choice questions, however students are required to show work to support their answers.
It is the student's responsibility to take the exam in the class that is scheduled.

In-class quizzes covering the preceding or current work may be given during lectures and/or recitations. Those scores count toward your final course grade. **There are no make-ups for in class activities**. Students missing a quiz will receive a grade of zero for that item.

Missed Exams

The general policy is that students who miss a common exam will receive a score of zero for that Exam. That score will be included in the calculation of your final grade. Students that miss two common exams automatically fail the course. Students who anticipate an absence from a common exam should discuss their situation with the Dean of Students PRIOR TO their absence. In order to be qualified to receive an "excused absence" for the common exam (a very rare occurrence), the student should present documentation for not being able to take the test as scheduled. As is the standard policy of NJIT, the student should present this document to the **Dean of Students - (973) 596-3466, Room 255 Campus Center** for evaluation. BOTH the Physics 103 instructor and Dean of Students must concur in permitting a "excused absence" for the common exam. Students who miss common exams that do not present documentation within 7 days of the common exam will receive a score of zero for the common exam.
In the event that the above qualification is met, a separate make-up test for the missed common quiz will not be offered. Instead, the final exam grade will be considered for giving a grade for the missed test. The instructor will evaluate the final exam questions from those chapters and normalize this portion of the student's grade for the missed common exam.
Conflict common exams are usually held from 6:00 to 7:30 PM on exam days; contact Ms. Oertel (christine.a.oertel@njit.edu) for arrangements.

Course Policies

It is expected that NJIT's University Code on Academic Integrity will be followed in all matters related to this course.

"Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at: NJIT Academic Integrity Code.

Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at dos@njit.edu"

- Students are required to agree to the NJIT Honor Code on each exam.

- Online resources, varying from AI tools to YouTube to the internet itself, can be unreliable sources for learning physics. Material might be accurate, partially correct, subtly misleading, or completely wrong—and it can be difficult to tell the difference. If you choose to use such technologies for physics-related questions, you do so at your own risk.

- Please do not eat, drink, or create noise in class that interferes with the work of other students or instructors.
  Interfering with an instructor's ability to conduct the class or the ability for other students to learn is considered as "Disruptive Conduct".

  The use of any internet services other than following the instructor's course notes and e-textbook is disruptive for the instructor and the other students.

- Students are strictly prohibited from using phones, earphones, headphones, smartwatches, wireless devices, laptops, or any messaging devices during exams.

- Calculators without wireless capabilities are allowed during exams, but sharing calculators is not permitted.

- **Student recordings**: Unauthorized student recordings of class sessions are prohibited. If a student needs to record a class because of accommodation, they need to reach out to the Office of Accessibility Resources and Services (OARS).
  https://www.njit.edu/registrar/njit-policy-recording-classes

- If the student cannot be continuously present in the exam room for the entire duration of the scheduled exam for any physical/medical reason, the student needs to seek accommodation through OARS in order to take the exam separately.

- Needless to say, do not contact any "tutoring services" for help during an exam.

Physics 103 Class Schedule for Fall 2024

	Topic	Text Study	Recommended Problems	
Week 1	Elasticity, Density and Pressure, Fluids at Rest	Chapt. 9 Sect. 5-6 Chapt.10 Sect. 1-7	p. 256 pr. 40, 45, 50 p. 285 pr. 2, 12, 14, 19, 23, 27, 34	Intro
Week 2	Fluids in Motion	Chapt. 10 Sect. 8-10	p. 285 prob. 47, 48. 49, 50, 53, 80	**A**
Week 3	Temperature, Thermal Expansion, The Ideal Gas Law	Chapt. 13 Sect. 1-8	p.385 prob. 5, 12, 15, 19, 24, 31, 39, 78	**7**
Week 4	Specific Heat, Calorimetry, Latent Heat,	Chapt. 14 Sect. 1-5	p.408 pr. 2, 13, 14, 25, 27, 34	**D**
Week 5	Transfer of Heat	Chapt. 14 Sect. 6 - 8	p.408 pr. 38, 42, 43, 54	**E**
Week 6	Thermodynamics	Chapt. 15 Sect. 1-7	p. 438 pr. 1, 18, 19, 24, 32	**F**
Week 7	Simple Harmonic Motion, Waves, Standing Waves	Chapt. 11 Sect. 1-12	p. 322 pr.3, 7, 8, 14,18, 27, 36, 37, 40, 49, 52	**G**
Week 8	Sound	Chapt. 12 Sect.1-7	p. 354 pr. 3, 4, 9, 14, 27, 28, 56, 63	**B1**
Week 9	Electric Charges, Electric Field, Electric Potential	Chapt.16 Sect.1-5, 7 Chapt. 17 Sect. 1-2	p. 468 pr. 2, 3, 19, 21 p. 496 prob. 3, 4, 6, 9	**W**
Week 10	Electric Current, Resistance, Electric Power	Chapt.18 Sect. 1-7	p.521 pr.1, 9, 13, 17, 28, 37, 47, 54	**J**
Week 11	Electric Circuits	Chapt.19 Sect. 1- 5, 7	p. 552 pr. 1, 4, 12, 15, 16, 77	**H**
Week 12	Light: Reflection, Mirrors, Refraction	Chapt. 22 Sect. 3-4 Chapt. 23 Sect. 1-3	p. 673 pr. 4, 9, 12, 25, 26, 28, 29, 72	**215**

Week 13	Light: Total Internal Reflection, Lenses	Chapt. 23 Sect. 4-8	p. 673 pr. 35, 36, 41, 43, 47, 48	**M**
Week 14	Interference, Diffraction Grating, Resolution			

Fall 2024 Academic Calendar

Sept	2	Labor Day. University Closed
Sept	3	First Day of Classes
Sept	9	Last Day to Add/Drop a Class
Sept	9	Last Day for 100% Refund, Full or Partial Withdrawal
Sept	10	W Grades Posted for Course Withdrawals
Sept	16	Last Day for 90% Refund, Full or Partial Withdrawal - No Refund for Partial Withdrawal after this date
Sept	30	Last Day for 50% Refund, Full Withdrawal
Oct	21	Last Day for 25% Refund, Full Withdrawal
Nov	**11**	**Last Day to Withdraw from Classes**
Nov	26	Thursday Classes Meet
Nov	27	Friday Classes Meet
Nov	28	Thanksgiving Recess Begins. No Classes
Dec	1	Thanksgiving Recess Ends
Dec	11	Last Day of Classes

Dec	12	Reading Day 1
Dec	13	Reading Day 2
Dec	14	Saturday Classes Meet
Dec	15	Final Exams Begin
Dec	21	Final Exams End
Dec	**23**	**Final Grades Due**
